

5TH ANNUAL CAL STRUBLE MEMORIAL GOLF TOURNAMENT

Cal Struble

Through his gentle spirit and brave heart, Cal was an inspiration to those living with HD and their families. Cal died from HD November 21, 2016, at the age of 59. During his 12 years with HD, Cal never gave up or gave in to HD. His two goals in life were to glorify God and raise money to find a cure for HD.

Every dollar raised is presented to HDSA to fund HD research and provide support to families.

The Golf Tournament has raised \$10,500 in 2017, \$15,000 in 2018, \$20,000 in 2019, and \$21,000 in 2020. Thank you!

YOUR GENEROSITY BRINGS US ONE STEP CLOSER TO FINDING A CURE!

Hosted by NWMO/Liberty Missouri HD Support Group

Our purpose is to provide a safe gathering place to share information and support each person and family with Huntington's Disease. We seek to raise public awareness of HD, to raise money to find a cure for HD, and to provide support along the journey.

Huntington's Disease Society of America

What is Huntington's Disease?

Huntington's disease (HD) is a genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years, and is ultimately fatal. HD manifests as a triad of motor, cognitive, and psychiatric symptoms, which progressively get worse over time.

The symptoms of HD are often described as having ALS, Parkinson's and Alzheimer's disease – *simultaneously*.

Every child of a parent with HD has a 50/50 chance of inheriting the faulty gene that causes the disease. Today, there are approximately 41,000 symptomatic Americans, or those that show signs of having HD. 200,000 people in the United States are at-risk of inheriting HD. In less than 10% of cases, juvenile Huntington's disease (JHD) affects children and adolescents.

There is no cure for HD.

About HDSA

The Huntington's Disease Society of America is the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's Disease (HD). From community services and education to advocacy and research, HDSA is the world's leader in providing help for today and hope for tomorrow for people with HD and their families.

HDSA Centers of Excellence

HDSA has 54 Centers of Excellence across the United States with 8 satellite sites. These Centers provide the team approach to HD care and research. There you will find HD-experienced neurologists, psychiatrists, speech and swallowing specialists, occupation therapists, physical therapists, genetic counselors and other professionals to help you plan the best care program.
